Players Technique		Score
Racket Bounce	Player scores one point for each time he/she uses the racket to bounce the ball upwards in the air over the course of 30 seconds. If the player loses control of the ball, hand them another ball and continue count.	
Forehand	Player stands on his/her side of the table with another player (feeder) on the other side. Using a total of five balls, the feeder tosses each ball to the player's forehand side. The player scores one point for hitting the ball back to the feeder's side of the table. The ball must hit the table to count as a point.	
Backhand	Same as forehand except the feeder sends the ball to the player's backhand side.	
Serve	The player shall serve five balls from the right side of the table and five balls from the left side of the table. If deemed a legal serve (i.e. hitting the opponents side of the table), this will count as one point.	
Final Score
